## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by McWilliams (3,921,320).

McWilliams discloses a vehicle having a laterally extending support (210). The support has two base members, each with an upright member attached to the base member forming a T-shape. The upright members are connected by a support element to form the I-beam (210). The upper base member has the same curvature as that of the roof so that it is flush with the underside of the roof (16).

### *Allowable Subject Matter*

3. Claims 4-12 and 14-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Blankenship whose telephone number is (703) 305-0223.
